Honorable Mayor Tim Knapp & The Wilsonville City Council

Today I was asked to write a letter in support of the move to extend the runway at the Wes Lematta Field at Aurora State Airport. Community Management manages the South End Corporate Airpark located in Aurora OR. This corporate airpark contains at least 33 corporate aircraft that fly in/out of the airpark daily. This brings a great influx to the local economy.

The safety factor of extending the runway is immeasurable to the safety of the pilots, passenger, aircraft and airpark. During time is adverse weather, this extra extension of the runway is invaluable to the pilots.

I ask the Mayor's office and City Council reconsider their opposition to this important issue.

Respectfully,

Steve Meyer, Community Manager, Vice President
